Aging

RESPONSIVENESS

The recipient of the Responsiveness award always delivers on his or her commitments in a timely manner. An employee who represents responsiveness never waits to follow up on communication, ensures that all parties involved are kept up to date at all times for effective flow of work, and when he or she is involved, there is no fear of something falling through the cracks. This employee is communicative, fast paced, detail oriented, focused, and team oriented.

I truly appreciate this recognition. I will continue to be committed to achieving our goals in a timely, reliable, and proactive manner, and I will continue to uphold the high level of responsiveness that this award represents. This accomplishment would not be possible without the dedication and support of the Area Agency on Aging team.
